ANTECEDENTES

Yaws is targeted for eradication by WHO in the 2021-2030 NTD Roadmap. It is therefore crucial to know how to identify cases, design and implement activities to eradicate the disease at the community level.

OBJETIVOS DEL EVENTO

- Understand epidemiology of yaws at national and district level
- Describe the clinical aspects of yaws
- Understand how the diagnosis is made
- Explain what the global eradication strategy is
- List how the recording and reporting is done

PÚBLICO OBJETIVO

This online course aims at providing health workers with the basic knowledge to understand the epidemiology, diagnosis, treatment, impact, eradication strategy and reporting of yaws.
