
Webinar on the Plastic Waste Inventory and Toolkit

Planeta

Plazo: 22 Jun 2025

Tipo:	Webinar
Ubicación:	Web-based
Fecha:	24 Jun 2025
Duración:	2 Horas
Área del programa:	Chemicals and Waste Management
Sitio web:	https://www.scycle.info
Precio:	0,00 US\$
Correo Electrónico del Centro de Coordinación del Evento:	halina.shyla@unitar.org
Colaboración:	Basel Convention Regional Center for Training and Technology Transfer for the South American Region

ANTECEDENTES

Knowledge and capacity are vital to addressing global challenges such as plastic pollution. To design effective, data-driven measures for plastic waste management, it is essential to understand plastic waste flows. The inventories provide insights into the effectiveness of current waste management systems and form the basis for developing effective, targeted strategies. This webinar

strengthen participants' ability to apply the Toolkit and build inventories to support evidence-based decision-making.

OBJETIVOS DEL EVENTO

The session aimed to support countries in the use of the Plastic Toolkit and the development of national plastic waste inventories.

OBJETIVOS DEL APRENDIZAJE

In the webinar, the methodology for developing a plastic waste inventory was explained, enabling participants to enhance their knowledge and build capacity in understanding plastic waste flows. During the webinar, participants got hands-on experience with the toolkit to estimate plastic placed on the market and plastic waste generated. At the end of the course, participants were able to interpret core indicators capturing key aspects of plastic flows.

CONTENIDO Y ESTRUCTURA

The webinar was designed as follows:

1. Overview of the methodology for developing a plastic waste inventory
2. Demonstration of the Plastic Toolkit
3. Presentation of core indicators of plastic waste
4. Q&A session
5. Interactive testing of the Toolkit by participants
6. Final Q&A and discussion
