

Unitar is a United Nations Institute for Training and Research (UNITAR) - High Visibility Enforcement Interventions

People

Type:	Course
Location:	Web-based
Duration:	4 Weeks
Programme Area:	Decentralize Cooperation Programme
Website:	https://unitar.org/sustainable-development-goals/people/our-portfolio/road-safe...
Price:	\$0.00
Event Focal Point Email:	roadsafety@unitar.org
Partnership:	Diageo

BACKGROUND

Unitar is a United Nations Institute for Training and Research (UNITAR) - High Visibility Enforcement Interventions

Worldwide, road traffic injuries claim more than 1.35 million lives each year with a disproportionate impact on health and development. They are the ninth leading cause of death across all age groups globally and the leading cause among young people aged between 5 and 29 years. Nearly 3,700 people die on the world's roads every day.

The adoption of policy and legislation on risk factors associated to traffic crashes—such as speeding, drink-driving, distracted driving, the use of helmets, seatbelts and child restraints, is essential to improve road safety.

At the same time, strengthening the individual and institutional capacities of law enforcement officers and relevant stakeholders to implement innovative interventions that reduce the number of road traffic injuries and fatalities related to drivers using alcohol is essential.

EN:

The e-Learning course “*High Visibility Enforcement Interventions: Law Enforcement to reduce road traffic crashes related to drivers using alcohol*” aims to serve as a tool for government officials to help them design programmes and interventions that contribute to achieve Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol.

The e-Learning course aims at raising awareness, creating knowledge and improving performance on. the following areas:

- The UN Decade of Action for Road Safety– Pillar 4 Safer Road Users

- The Global Road Safety Performance Targets and Sustainable Development Goals (SDGs) related to road safety
- The use of the High Visibility Enforcement (HVE) as an approach to change road user behaviour and reduce road traffic injuries and fatalities related to drivers using alcohol

LEARNING OBJECTIVES

By the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4 – Road Safety Governance, and the role of the High Visibility Enforcement (HVE) approach in achieving the targets
- Explain the importance of the High Visibility Enforcement (HVE) approach in achieving the targets, and the role of the HVE approach in achieving the targets
- Describe the importance of the High Visibility Enforcement (HVE) approach in achieving the targets, and the role of the HVE approach in achieving the targets
- Explain the importance of the High Visibility Enforcement (HVE) approach in achieving the targets, and the role of the HVE approach in achieving the targets
- Describe the importance of the High Visibility Enforcement (HVE) approach in achieving the targets, and the role of the HVE approach in achieving the targets
- Explain the importance of the High Visibility Enforcement (HVE) approach in achieving the targets, and the role of the HVE approach in achieving the targets

EN:

At the end of this e-Learning course, participants will be able to:

- Describe the UN Decade of Action for Road Safety, particularly Pillar 4

- Recognize the 12 Global Road Safety Performance Targets and SDGs related to road safety
- Adapt and apply the HVE approach with extensive communication, education, and outreach to their respective contexts
- Identify and integrate key stakeholders to address road safety
- Develop minimum indicators to monitor progress towards the achievement of the Global Road Safety Performance Target 9: By 2030, halve the number of road traffic injuries and fatalities related to drivers using alcohol

CONTENT AND STRUCTURE

El curso está dividido en 5 módulos que se detallan a continuación:

- Módulo 1: Introducción a la seguridad vial y su importancia en el desarrollo sostenible. Se abordarán los Objetivos de Desarrollo Sostenible (ODS) relacionados con la seguridad vial y se presentará el enfoque de alta visibilidad (HVE).
- Módulo 2: ¿Qué es una intervención de alta visibilidad? Se explicará el concepto de HVE, sus componentes y cómo se implementa en diferentes contextos.
- Módulo 3: Caso de estudio: México "Conduce sin Alcohol" : Se analizará el programa "Conduce sin Alcohol" de México, su impacto y los factores que contribuyeron a su éxito.
- Módulo 4: Caso de estudio: República Dominicana "Tomatelo en Serio" : Se analizará el programa "Tomatelo en Serio" de la República Dominicana, su impacto y los factores que contribuyeron a su éxito.
- Módulo 5: COVID-19: Se abordarán las buenas prácticas y precauciones cuando se utilizan los alcohómetros.
