The Worldwide Educators Conference (WVEC) is a leading global platform that brings together educators, policymakers, researchers, and innovators to shape the future of education. The 2025 edition, held in Shanghai, marks the 11th gathering of this international event.

- To convene leading educators, policymakers, researchers, and innovators to exchange knowledge and best practices in education.
- To promote global cooperation in education and talent development.
- To align educational strategies with China's modernization and innovation goals.
- To foster dialogue on the integration of technology, sustainability, and inclusiveness in education.
- To showcase and strengthen partnerships between government, academia, and industry in advancing education systems.

- **Plenary Sessions & Keynotes:** High-level talks by government officials, academic leaders, and innovators.
- **Forums & Panel Discussions:** ~20 thematic forums covering basic education, vocational training, AI in education, sustainable development, global cooperation, philanthropy, and rural revitalization.
- **Workshops & Networking:** Interactive sessions for educators and stakeholders to share experiences and projects.
- **Associated Expo (GLEE):** Exhibition showcasing educational technologies, institutions, and solutions.
- **Charitable Events:** Public welfare project incubation, education philanthropy sessions, and resource-sharing initiatives.

- **Knowledge Sharing:** Through keynote speeches, expert panels, and case study presentations.
- **Collaborative Dialogue:** Multi-stakeholder forums encouraging exchange between policymakers, educators, and innovators.
- **Experiential Learning:** Practical demonstrations at the Global Life & Education Expo.
- **Inclusive Engagement:** Dedicated tracks for rural education, philanthropy, and underrepresented communities.

- **Networking and Partnerships:** Facilitated meetings to encourage international and cross-sector collaboration.

- Education policymakers and government representatives.
- Leaders and administrators from universities, schools, and vocational institutions.
- International organizations and NGOs working in education and development.
- Private education providers and associations.
- Researchers, scholars, and think tanks specializing in education.
- EdTech companies and innovators in AI, digital learning, and metaverse education.
- Philanthropic organizations and social entrepreneurs in education.
- Teachers, trainers, and educators seeking professional development.
