Alliance (ILC), , NGO Committee on Ageing, Geneva, , Global Initiative Foundation on Ageing (GIA), , Group of Friends of the Human Rights of Older Persons in Gva, , International Labour Organization

General Scenario for the whole series

The Virtual Roundtable Series “Mainstreaming Knowledge on Ageing” began in 2022, bringing together partners and participants to assess the state of ageing and the human rights of older persons in its first year. The second year focused on access to justice, labor markets, political participation, healthcare, social services, and cultural and leisure activities. Last year, the series addressed the quality of life for older persons. This year's series will be the opportunity to learn on advancing the human rights of older persons in times of converging crises. We will address critical issues affecting older persons, including their right to work, healthcare, technology, legal protection, and food security in times of peace and war.

The human rights of older persons and frontier issues, such as the demographic worldwide scenario, gender, human mobility, digital divide, and climate change, will continue as the heart of our discussions.

In our series, we consider national, regional, and international standards, as well as public policies, programs, and other initiatives as key learning elements. In the same vein, we envisage that heightening awareness of ICT/digital accessibility implementation from design is relevant to better understand how older persons can benefit from digital products and services as means to actively participate in political, cultural, and socio economic activities. By involving diverse stakeholders as co-sponsors, experts, speakers, and attendees, we aim to enhance discussions and build stronger synergies towards achieving our common goal.

In this endeavour, UNITAR and its International Training Centres for Authorities and Leaders -CIFAL Global Network-, UNDESA, UNFPA, IOM, UNWOMEN, UNHCR, WHO, OHCHR, ITU and ILO; together with the Group of Friends of the Human Rights of Older Persons UN Geneva; the Global Initiative on Ageing Foundation, GIA; the International Network for the Prevention of Elder Abuses; the International Longevity Centre; and the NGO Committee on Ageing Geneva; and

the Harvard Law School Project on Disability, have joined efforts to put together this initiative as a contribution to inclusive learning in the framework of the UN Decade of Healthy Ageing.

Background of the 3rd event

Scientific and technological advancements are transforming every aspect of modern life, from healthcare innovations and artificial intelligence to digital communications and smart infrastructure.

While these developments hold immense potential to improve the quality of life, older persons often face systemic barriers that prevent them from fully exercising their right to enjoy the benefits of scientific progress and its applications, as recognized in international human rights law.

Barriers include limited digital literacy, inadequate access to devices and connectivity, and age-related challenges in adapting to rapidly evolving tools. Socioeconomic disparities, inaccessible design, and ageism in technology deployment further compound the problem. Without intentional inclusion, older persons risk being left behind in an increasingly digital society, excluded from opportunities for lifelong learning, telemedicine, online participation, and social connectivity.

Ensuring equitable access to scientific advancements and digital technologies is not only a matter of innovation policy but a matter of rights, dignity, and intergenerational solidarity. In this regard, this roundtable will bring together experts, policymakers, civil society, and older persons themselves to discuss pathways for inclusion, identify existing gaps, and promote concrete strategies that bridge the digital divide.

This third event, will take place on Wednesday, **at 09:30 NY/ 15:30 CET, on the 10th of September, 2025.**

General objectives of the whole series

1. Fostering knowledge on the impact of including older persons in the implementation of standards and the work of diverse mechanisms.

2. Learning from some good practices and challenges, including laws, policies, and strategies on accessibility issues, from different stakeholders.
3. Identifying existing initiatives and possible ways to improve the protection and participation of older persons in times of converging crises.
4. Recognizing possible synergies for strengthening partnership to advance the human rights of older persons.

Specific objective of the third event

To identify the barriers older persons face in accessing digital tools and scientific advancements, and to promote policies ensuring inclusion, digital literacy, and equitable access to technological benefits.

Specific objective of the third event

To identify the barriers older persons face in accessing digital tools and scientific advancements, and to promote policies ensuring inclusion, digital literacy, and equitable access to technological benefits.

Third event

- **Welcome remarks**
- **Speakers**
 - The Right to Science and Access to Technologies for Older Persons
- **Moderation**
- **Q&A**

Online. The events will be celebrated online with spirit of inclusion to allow participants from different parts of the world to join us.

The event is open to different actors interested in Ageing and the rights of older persons, including:

- Public sector officials, policy makers and practitioners
- International Organizations
- Civil Society
- National Human Rights Institutions
- Academia
- Private sector

This event as well as the upcoming ones from the virtual roundtable series are open and free to All. Each event will have a specific focus.

IMPORTANT NOTES

1. Participants who want to receive a certificate of participation need to fulfill the following criteria: Having participated at least 75% by Zoom (To be measured by the system).
2. You're warmly welcome to send questions or suggestions in advance to [sdp \[at\] unitar.org](mailto:sdp@unitar.org) ([sdp\[at\]unitar\[dot\]org](mailto:sdp@unitar.org))
3. After the celebration of each event, those participants who joined them will be receiving the respective video recording together with takeaway messages.
